WE KNOW MORE BECAUSE WE'VE DONE MORE

For over 30 years, Brenton has partnered with consumer goods manufacturers with regulatory and market driven demands requiring a collaborative, long-standing partnership. We attribute our longevity to our foundation going beyond the traditional measure of success. Our focus is on things that define who we are: our commitment to our customers and employees, and the provision of customer driven solutions.

MARKETS SERVED

- Food
- Beverage
- Pharmaceutical
- Nutraceutical
- Medical Device
- Healthcare
- Personal Care
- Household Products
- Pet Products
- Material Handling

We are the brand of robotic systems including material handling and high speed pick and place, case packing, palletizing and integrated, end-of-line systems that provides dependable solutions, built to the customer's specifications, so that our customers progress forward with confidence, without compromising the end-result. Brenton ensures agreed upon performance, never walking away from their solutions. That's because unlike our competition, who offer only case packing, palletizing or robotics, at Brenton we know more because we have done more.

Your requirements are brought to life by skilled and seasoned engineers that attend to every detail to achieve a packaging solution that reliably handles and maintains the integrity of your product, is user-friendly, runs efficiently and produces aesthetically pleasing packages that promote your brand.

M2000

> Robotic Expertise

Brenton has over 500 robotic installations in the field. As a certified FANUC integrator, we are in the top 4% of their integration base and have master trained technicians on staff. Our robotic reach does not stop there, we are equipped to integrate any robot the customer specifies.

> Conventional Knowledge

Whether it is a palletizer or case packer, we know traditional equipment. If you are looking for speed and precision, for a dedicated range of products we can provide the solution that meets your exact needs.

> End of Line Integration

Brenton is a single source for turnkey, customer-driven, integrated systems. Supplying integrated systems that include our machinery allows us to minimize costs and leverage our expertise to ensure all integrated solutions are ideally suited for each application.

> Customization

We do not expect the customer to be confined to what the industry is offering. The customer's specifications drive our designs to ensure they are receiving the precise solution they are looking for.

> Superior Support

With one of the longest standing Aftermarket teams in the industry, we provide service, parts and retrofit solutions for all EOL packaging equipment, whether it is Brenton's or a competitor.

OUR PROMISE, YOUR CONFIDENCE

- In-house machine Factory Acceptance Test to ensure quickest path from installation to production
- 24-hour Technical Support for general trouble shooting
- Complete Aftermarket department including retrofits, service and parts
- Machine audits for safety reviews, machine analysis, visual inspection for worn/broken parts, and machine adjustments

“The Brenton team has always answered the call to design the best, unique solutions... they give us support and design solutions that have made this relationship grow... you don’t realize how good you have it until you work with some other companies.”

AMERICAN MULTINATIONAL CONGLOMERATE LOCATED NEAR BRENTON

Brenton engineers and manufactures custom case packaging, palletizing, robotic packaging systems including material handling, high speed pick and place, and integrated end-of-line systems.
